## The experience

### Nature in its purest form

Did you know there are 10 gateways into the Esteros del Iberá across the province of Corrientes? We invite you to visit the San Nicolás Portal, 27 km from the entrance of San Miguel, a National Historic Town since 2020.

To get there we cross private ranches on a natural dirt road: depending on the rainy or dry season it can turn into a real rally, and that is part of the adventure. Along the way we see the main economic and traditional activities of the province.

Located in the west of Corrientes, this portal stands out for some of the best wildlife watching: capybaras, marsh deer, caimans, birds and a unique biodiversity in an incomparable natural setting.
